

APPLICATION FOR APPROVAL OF A PLAN OF SUBDIVISION or CONDOMINIUM DESCRIPTION Under Section 51 of the Planning Act

NOTE TO APPLICANTS:

This application form is to be used if applying for approval of a proposed plan of subdivision or condominium description in the City of Belleville. In this form, the term “subject land” means the land that is the subject of this application.

Completeness of the Application:

The application must be completed in full. The information that must be provided by the applicant is prescribed in the Schedule to Ontario Regulation 196/96 made under the Planning Act. This mandatory information must be provided with the appropriate fee and draft plan. If the mandatory information including the draft plan and fee is not provided, the City will return the application or refuse to further consider the application until the prescribed information, draft plan and fee have been provided. The application form also sets out other information (e.g., technical information or reports) that will assist the City and others in their planning evaluation of the development proposal. To ensure the quickest and most complete review, this information should be submitted at the time of application. In the absence of this information, it may not be possible to do a complete review within the legislated time frame for making a decision. As a result, the application may be refused.

Submission of the Application:

The application shall include:

- 2 copies of the completed application form,
- 20 copies of the draft plan (measurements are to be in metric units),
- 4 copies of the draft plan on 8½” x 11” or 11” x 17” paper,
- 1 copy in digital format (pdf),
- 1 copy in digital format (dwg),
- 5 copies of the information/reports if indicated as needed when completing the relevant sections of the application form. The nature of the information/reports varies with the type of land uses proposed and the existing land use and topographic features, and
- the application fee based on **\$2,000.00 plus \$100 per lot/unit** included in the plan, payable to the **City of Belleville**. (Please see Page 2 for Quinte Conservation Fee Schedule.)

Copies of the draft plan will be circulated to Provincial ministries, City departments and other agencies that may have an interest in the application. If the applicant is of the opinion that the scale or nature of the proposal may require that a large number of agencies be consulted, we recommend that 30 copies of the draft plan be submitted.

For assistance in completing the application form and/or preparing a draft plan of subdivision, please contact the Approvals Section, Engineering and Development Services Department at City Hall, 169 Front Street, Belleville, (613) 968-6481.

QUINTE CONSERVATION FEE SCHEDULE

6. PROVINCIAL POLICY

- 6.1 Briefly explain how this proposal has regard for the Provincial (Planning) Policy Statement issued under the Planning Act.

- 6.2 Table B below lists the features and development circumstances contained in the Provincial (Planning) Statement. Complete Table B and submit the information as indicated. If this information exists in a report or is shown on a map, please attach it and indicate the report name and/or page number in the appropriate space on the table. **If the information is not submitted, it may not be possible to do a complete and proper planning evaluation.**

Refer to the Provincial (Planning) Policy Statement, Implementation Guidelines and the Guide to Planning Applications for a full description of the policies, the purpose of the information/reports and how it will be used in the evaluation of the application.

Table B below lists the features or development circumstances of interest to the City. Complete Table B and be advised of the potential information requirements in noted sections.

Table B – Significant Features Checklist

Features of Development Circumstances	(a) If a feature, is it on site or within 500 metres OR (b) If a development circumstance, does it apply?		If a feature, specify distance in metres	Potential Information Needs
	YES (X)	NO (X)		
Non-farm development near designated urban areas or settlement areas				Demonstrate sufficient need within 20-year projections and that proposed development will not hinder efficient expansion of urban areas or rural settlement areas
Class 1 Industry ¹			_____ metres	Assess development for residential and other sensitive uses within 70 metres.
Class 2 Industry ²			_____ metres	Assess development for residential and other sensitive uses within 300 metres.
Class 3 Industry ³ within 1000 metres			_____ metres	Assess development for residential and other sensitive uses within 1000 metres.
Land Fill Site			_____ metres	Address possible leachate, odour, vermin and other impacts.
Sewage Treatment Plant			_____ metres	Assess the need for a feasibility study for residential and other sensitive land uses.
Waste Stabilization Pond			_____ metres	Assess the need for a feasibility study for residential and other sensitive land uses.
Active Railway Line			_____ metres	Evaluate impacts within 100 metres.
Controlled access highways or freeways, including designated future ones			_____ metres	Evaluate impacts within 100 metres.
Operating mine site			_____ metres	Will development hinder continuation or expansion of operations?
Non-operating mine site within 1000 metres			_____ metres	Have potential impacts been addressed? Has mine been rehabilitated so there will be no adverse effects?
Airports where noise exposure forecast (NEF) or noise exposure projection (NEP) is 28 or greater				Demonstrate feasibility of development above 28 NEF or sensitive land uses. Above the 35 NEF/NEP contour, development of sensitive land uses is not permitted.
Electric transformer station			_____ metres	Determine possible impacts within 200 metres.
High voltage electric transmission line			_____ metres	Consult the appropriate electric power service.
Transportation and infrastructure corridors				Will the corridor be protected?
Prime agricultural land				Demonstrate need for use other than agricultural and indicate how impacts are to be mitigated.
Agricultural operations			_____ metres	Development to comply with the Minimum Distance Separation Formulae.
Mineral aggregate resource areas				Will development hinder access to the resource or the establishment of new resource operations?
Mineral aggregate operations			_____ metres	Will development hinder continuation of extraction?
Mineral and petroleum resource areas				Will development hinder access to the resource or the establishment of new resource operations?

Existing pits and quarries			_____ metres	Will development hinder continued operation or expansion?
Significant wetlands				Demonstrate no negative impacts.
Significant portions of habitat of endangered and threatened species			_____ metres	Demonstrate no negative impacts.
Significant fish habitat, woodlands southeast of the Canadian Shield, valleylands, areas of natural and scientific interest, wildlife habitat			_____ metres	Demonstrate no negative impacts.
Sensitive groundwater recharge areas, headwaters and aquifers				Demonstrate that groundwater recharge areas, headwaters and aquifers will be protected.
Significant built heritage resources and cultural heritage landscapes				Development should conserve significant built heritage resources and cultural heritage landscapes.
Significant archaeological resources				Assess development proposed in areas of medium and high potential for significant archaeological resources. These sources are to be studied and preserved, or where appropriate, removed, catalogued and analyzed prior to development.
Great Lakes – St. Lawrence River System				Within the regulatory shoreline access the impact of development.
Erosion hazards				Determine feasibility within the 1:100 year erosion limits of ravines, river valleys and streams.
Floodplains				Where one-zone floodplain management is in effect, development is not permitted within the flood plain. Where two-zone floodplain management is in effect development is not permitted within the floodway. Where a Special Policy Area (SPA) is in effect, development must meet the official plan policies for the SPA.
Hazardous Sites ⁴ and rehabilitated mine sites			_____ metres	For development on rehabilitated mine sites, an application for approval from the Ministry of Northern Development and Mines should be made concurrently.
Contaminated sites				Assess an inventory of previous uses in areas of possible soil contamination.

1. Class 1 industry – small scale, self-contained plant no outside storage, low probability of fugitive emissions and daytime operations only.
2. Class 2 industry – medium scale processing and manufacturing with outdoor storage, periodic output of emissions, shift operations and daytime truck traffic.
3. Class 3 industry – indicate if within 1000 metres – processing and manufacturing with frequent and intense off-site impacts and a high probability of fugitive emissions.
4. Hazardous sites – property or lands that could be unsafe for development or alteration due to naturally occurring hazards. These hazards may include unstable soils (sensitive marine clays [leda], organic soils) or unstable bedrock (Karst topography).

6.3 Affordable Housing: For applications that include permanent housing (i.e. not seasonal) complete Table C below. For each type of housing and unit size, complete the rest of the row. If lots are to be sold as vacant lots, please indicate the lot frontage, Information should be based on the best information available at the time of application. If additional space is needed, attach on a separate page.
