

NOTICE OF STUDY COMMENCEMENT
CORPORATION OF THE CITY OF BELLEVILLE

CLASS ENVIRONMENTAL ASSESSMENT
FOR THE REHABILITATION
OF THE BAY BRIDGE ROAD CPR OVERHEAD

The City of Belleville has initiated a Municipal Class Environmental Assessment to evaluate alternatives for the rehabilitation of the Bay Bridge Road CPR Overhead, located on Bay Bridge Road, just south of Dundas Street West. The assessment of the structure will consider various alternatives for rehabilitation including widening to accommodate traffic and pedestrian needs.

The study will proceed in accordance with the *Municipal Class Environmental Assessment, October 2000*, as amended in 2007 – *Schedule "B"*. Various alternatives will be analyzed and evaluated based on feasible engineering technologies, public safety and natural, social, economic and cultural environments

Public and agency consultation is an important component of the Environmental Assessment process. Public and agency input are invited for incorporation into the planning and design of the project.

A Public Information Centre is planned for this spring, at which time the Public will be provided with an opportunity for input into the planning and design of this project. The date, time and location for the Public Information Centre will be announced in the near future. Upon completion of the study a Project File Report will be made available for public review and comment. Subject to comments received and the receipt of necessary approvals, the City of Belleville would then proceed with the design and construction of this project thereafter.
