The Belleville Downtown Master Plan was initiated and funded by the City of Belleville with the Belleville Business Improvement Area Board of Management providing significant leadership and assistance.

The Master Plan is the product of a highly collaborative process involving a broad cross-section of the Belleville community. Numerous residents, businesses, land owners, institutions and organizations have contributed either by volunteering time and information throughout the process or through their participation and feedback during the Visioning Workshop and Open Houses. The involvement and support of the community was invaluable and their participation greatly appreciated.

The direction, enthusiasm and assistance of the Belleville Downtown Master Plan Steering Committee have been invaluable in the formation of this document and we would like to thank and recognize the following members:
