The City of Belleville has completed a Municipal Class Environmental Assessment to evaluate alternative routes for a minor extension of College Street East and associated servicing of City-owned industrial lands west of Bell Creek (refer to the study area map below). The extension would facilitate future development of the existing industrially-zoned lands in the North East Industrial Park area. The study followed the Municipal Class Environmental Assessment, October 2000, as amended in 2007 - Schedule ‘B’.

A Project File Report has been prepared documenting the study process, and the preferred solution for the minor extension of College Street East. The report is available for public review for a 30-day period, from February 24 to March 23, 2012 at:

The City of Belleville, Corporate Services Department
169 Front Street, Belleville, Ontario K8N 2Y8

If concerns regarding the project cannot be resolved in discussion with the City, a person or party may request that the Minister of the Environment make an order for the project to comply with Part II of the Environmental Assessment Act (referred to as a Part II Order), which addresses Individual Environmental Assessments and requests to elevate a project to Schedule ‘C’. Requests must be received by the Minister by March 23, 2012, with a copy sent to the City Clerk and the Manager of Engineering (addresses below). If there are no requests by this date, the City of Belleville may proceed with detailed design of the project.

Hon. Jim Bradley
Minister of the Environment
77 Wellesley Street West
11th Floor, Ferguson Block
Toronto, ON, M7A 2T5

Mr. Ray Ford, P. Eng
Manager of Engineering
