The City of Belleville has completed a Municipal Class Environmental Assessment to evaluate alternatives for the extension of Station Street and Haig Road, a new collector road link project identified in the City’s Official Plan, to permit additional residential and non-residential development in the Stanley Park Development area (refer to the study area map below). The study followed the Municipal Class Environmental Assessment, October 2000, as amended in 2007 & 2011 - Schedule ‘B’.

A Project File Report has been prepared documenting the study process, and preferred solution for the extension of Station Street and Haig Road. The report is available for public review for an extended 30-day period, from December 18 to January 30, 2015 during normal business hours at:

The City of Belleville
Corporate Services Department
169 Front Street
Belleville, Ontario K8N 2Y8

or

The Belleville Public Library
254 Pinnacle St
Belleville, ON K8N 3B1

If concerns regarding the project cannot be resolved in discussion with the City, a person or party may request that the Minister of the Environment make an order for the project to comply with Part II of the Environmental Assessment Act (referred to as a Part II Order), which addresses Individual Environmental Assessments. Requests must be received by the Minister by January 30, 2015, with a copy sent to the City Clerk and the Director of Engineering and Development Services (addresses below). If there are no requests by this date, the City of Belleville may proceed with detailed design of the project.

For further information about the study or the Municipal Class Environmental Assessment process, please contact City of Belleville Senior Project Manager Mr. Barry Simpson at: telephone number (613) 968-6481, email address bsimpson@city.belleville.on.ca, or at the City of Belleville mailing address below.
