

# NOTICE OF COMPLETION

## CITY OF BELLEVILLE WET WEATHER AND WASTEWATER SERVICING MASTER PLAN

The City of Belleville has completed a Master Planning process in accordance with Approach No.1 of the Municipal Engineers Association (MEA) Class Environmental Assessment (Class EA) process to develop a wet weather and wastewater servicing master plan.

The Master Plan identifies a list of required improvements and expansion to the City's wastewater conveyance system and the Belleville Wastewater Treatment Plant, such that the existing and future growth within the City's communal wastewater servicing area can be supported. An overall strategic plan has been developed to allow the City to implement projects over a logical time period and in a prioritized fashion.

This project has been conducted in accordance with the requirements under the Municipal Class EA (October 2000, as amended in 2007, 2011 & 2015), Master Planning process Approach No.1. Subject to comments received as a result of this Notice and the receipt of necessary approvals, the City intends to proceed with the proposed projects identified in the Master Plan. The Master Plan report, which contains a summary of pertinent information compiled during the study period, is available online or in person at:

City of Belleville  
City Hall, 169 Front Street, Belleville, ON K8N 2Y8  
Monday – Friday: 8:30 a.m. – 4:30 p.m.  
613-968-6481 Ext.3220

Comments should be provided in writing to the City of Belleville and J.L. Richards & Associates within 30 calendar days from the date of this Notice. It shall be noted that the Part II Order is not applicable for this Master Plan study and project-specific Class EA studies are required to be completed for the identified Schedule 'B' and 'C' projects.
