Play for all ages and abilities at Parkdale Veterans Park!

When children of all abilities play together, they can learn, grow and discover there is no limit to what they can achieve. Our playground was designed with this philosophy in mind and offers a variety of features that promote access, safety, comfort and social participation of all users.

Below we have highlighted a few of the developmentally and age appropriate play experiences that are part of our design. This play space is full of sensory stimulating activities that we encourage you to explore by clicking on the video links to see the components in action!

**Smart Play Cube**
14 interactive activities to help kids ages 18 months to 5 years build cognitive and motor skills. [See it »]

**Molded Bucket Seat Swing**
This chair-like seat is simple to get in and out of for those with limited mobility. [See it »]

**Accessible Cycler**
Users of all abilities can fine tune their upper body strength and coordination. [See it »]

**Rollerslide**
This slide offers a unique sensory experience for users. [See it »]

**Accessible Ramp**
Provide easy access to your play structure from ground level.

**Poured in Place Rubber**
This unitary surfacing option is ideal for an accessible play space.
